EXTRUDED BARS& SECTIONS

COPPER ALLOY INGOTS

FERROUS & NON-FERROUS COMPONENTS

We started our triumphant journey in the year 1981 as a small family owned unit to manufacture **Brass Electrical Components** in Jamnagar, Gujarat.

In the year 2007, we changed to Private Limited Company & since then we have grown into one of India's leading Manufacturers & Exporters of **Brass Extruded Bars in Solid & Hollow** forms along with a wide range of **Brass & Copper Alloys' Forged, Casted, Turned & Machined Components** having application in Electrical, Earthing, Automobiles, Pneumatic Controls, Railways, Plumbing & Agriculture Industry.

- ₹ To be the leader as Manufacturers and Suppliers of **High Quality Copper Alloy Products** across the Globe.
- ① Understand the customer needs and continually **Reinventing** our processes, products, research and development to help them succeed.
- Be a **ONE STOP SHOP SOLUTION** that supplies the needed foundation and added business value to help assure long term sustainability.
- Provide our associates with a **Positive Work Environment**, full of opportunity for personal and professional development.
- Continually strive for Sustainability and Safety of our People, Customers and Environment.

- Finish Goods Storage

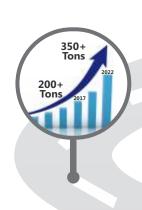

SUCCESS is not a destination.

It is a continuous JOURNEY

of striving towards your IMPORTANT

goals that NEVER ENDS.

2022
Achieved Monthly
combined Production of
350+ Metric Tons

1981
Started as a small family owned unit to Manufacture Electrical Components

2007
Backward Integration
in the form of
Extrusion Mill to
Produce Brass Bars

2012
Expanded Product
range with addition
of Copper Based
Alloy Ingots

2023
Installed Bigger
Foundries to increase
Production Capacity for
Bars & Ingots

2025
Pursue Top Technology and deploy new resources to contribute on a Global Scale

2020
Installed Forging
Presses to Manufacture
Ferrous & Non-Ferrous
Components

2018
Installed smaller Foundries
to Manufacture
Copper Alloy Casted Components

2015
Installed wide range of CNC and VMC to Manufacture Precision Components

2017
Achieved Monthly
combined Production of
200+ Metric Tons

Adinath is well equipped with high efficiency quality testing equipments. Our **Quality Management System** ensures documented process controls from start to finish.

- Procurement of raw material
- Their combination
- Manufacturing processes
- Chemical analysis
- Measurement
- Inspection

Testing Equipments & Facilities

- Handheld Analyzers
- Spectrometer with Arc & Spark Excitation Technology
- Temperature Control Instruments
- Hardness Tester
- Push-Pull Test Machine
- Muniversal Tensile Testing Machine
- Vision Inspection System

- Digital Micrometers/Calipers
- Thread Gauges & Ring Gauges
- Dial Gauges & Pin Gauges
- Torque Testing Machine
- Plating Thickness Tester
- Surface Finish Tester
- Air Gauge Unit
- Pressure Leakage Testing Machine

"When your people will come alive, your Business will come alive."

With the above intention, Adinath focuses on Employees' Continuous Improvement through Brain - Storming Sessions & Training Programs to enhance their knowledge, skills & experience resulting in overall improvement in their performance.

Machining Sizes

♠ 1 mm to 200 mm

Copper + Nickel + Iron + Aluminium + Manganese

Copper + Iron + Aluminium

Copper + Lead + Zinc + Iron + Aluminium + Manganese

GUN METAL / RED BRASS / BRONZE Copper + Lead + Tin + Zinc + Nickel

Copper + Zinc + Silicon + Aluminium

SILICON BRONZE Copper + Aluminium + Manganese + Silicon

PHOSPHOR BRONZE Lead + Tin + Zinc + Phosphor

PACKING

ADINATH manufactures wide range of Copper Alloys in the form of **Certified Ingots** weighing from 8-10 kgs each.

Standard Packaging of 1 Metric Ton in Wooden Pallet.

SHAPES

SOLID ROUND BARS

Size Range:

Dia 4 mm up to 120 mm

SOLID RECTANGLE BARS

Size Range:

A/F 5 x 6 mm up to 100 x 50 mm

SOLID HEX BARS

Size Range:

A/F 5 mm up to 100 mm

HOLLOW BARS

Outer Diameter: In Round, Hex & Square

Size Range: 30 mm up to 120 mm

Inner Diameter: Round

Size Range: From 20 mm up to 80 mm

SOLID SQUARE BARS

Size Range:

A/F 5 mm up to 90 mm

Environment & Scrap Recycling

We are committed to minimize our environmental impact by maximum use of **Recycled Materials** and ensure to operate in a way that implement the **Best Environmental Friendly Practices**.

We have invested good amount of time & efforts to create a **Hazardous Free Environment** by installing Fume Arrestors, Filter Bag Houses, Chimneys & Zero Discharge water facility through Effluent Treatment Plant.

Scrap Recycling Policy

- © Copper is an essential element and very valuable to the scrap industry.

 Recycling of Copper is much more economical than to mine.
- Adinath's scrap recycling policy aims to produce globally competitive products at cost effective price by **Recycling The Generated Scrap Responsibly**, without any loss of performance.

- → We Recycle all Casting, Extrusion and Machining process scrap.
- Our Customers are the primary source of supply for the recycled scrap. Any Copper Alloys that we sell and is not used in our customers' products is **bought back** in the form of end cuts, chips, solid form or swarfs.

Corporate Social Responsibility

- Reduce the Waste
- Trees Plantation
- mproving Labour Policies
- Diversity, Equity & Inclusion
- Optimised Overall Performance
- Philanthropy
